

MITHAT ERCAN

JR FRONT-END DEVELOPER

About me

I'm a self-taught frontend developer with flair for design, devoted to building quality websites and apps.

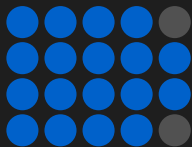

I have a firm knowledge of HTML, CSS and JavaScript language and possess a good knowledge of computer software packages (frameworks and tools) that are used in today's technology.

On a personal level, I am highly motivated, result oriented, self-driven, hard-working, fast learner and constantly seeking to improve my skills and am fully aware of the latest Front-end Development Tools.

My love of beautiful websites and curiosity made me discover and explore Web development which naturally, led to my great interest in front-end web development.
